### RIMLESS FLUSHING

The innovative design of rimless flushing is the latest must-have feature for your bathroom. A direct flush shoots water around the edge of a smooth pan, washing it more effectively and with more power than a standard flush. This modern alternative is easier to clean, more hygienic and leaves no place for germs to build up.

Look out for the Rimless Flushing tag throughout.

# DOLOCAST™

Products made of DOLOCAST™ offer a unique appearance. The material gives design flexibility that goes beyond possibilities of all traditional materials.

DOLOCAST™ comes from nature. Its main ingredient is dolomite. Dolomite is composed of calcium magnesium carbonate,  $\text{CaMg}(\text{CO}_3)_2$ . It was formed over 250 million years ago when the Earth witnessed increased volcanic activity. Dolomite sedimentary rocks were covered by layers of magma. High temperatures and enormous pressures recrystallised original minerals. Due to metamorphic processes the dolomite marble gained a beautiful look and hardness.

Today raw materials are sourced from carefully selected certified mines located in EU. Then the rocks are milled and purified.

The outer layer of a product is made of nanocoat, hardened resin with pigment and particles of quartz. It determines the final gloss and smoothness of the surface.

## DESIGN FLEXIBILITY

---

DOLOCAST™ is a material that liberates creativity. Its extraordinary properties allow for unlimited design possibilities. The material's innovative structure gives freedom of form, therefore countless designs are available.

## DURABILITY

---

DOLOCAST™ is a unique structure which enables dolomite stone to attain a whole new level of durability in the bathroom. Products remain in a brand-new condition for many years.

## PRECISION IN FORM, EDGES & RADIUSSES

---

DOLOCAST™ is precise by its very nature. The material enables an extensive range of shapes to be created that frees up the imagination of designers.

## SOUND INSULATION

---

DOLOCAST™ offers exceptional acoustic absorption. This feature comes from high particle density contained in the material. It prevents the sound of water striking a surface, and so improves living comfort and convenience of use significantly.

## SUPERIOR FINISH

---

Just one touch and you'll feel the nature inherent in our material. Baths and basins made from DOLOCAST™ are pleasant to the touch and have a smooth finish. They are resistant to even the most extreme conditions due to the inherent strength of the nanocoat surface.

## WARMTH

---

Products made from DOLOCAST™ maintain an optimal temperature for a long time, they are always warm to the touch and provide unprecedented comfort in the bathroom.

All our staff are fully trained to help you make your bathroom come to life.

During your no-obligation design appointment, we will start by creating a floorplan of your new bathroom. All we will require are your current bathroom dimensions including the size of windows, doors, and any other information that may help such as the soil pipe position and type of water system.

It would also be helpful if you could bring photos of your existing bathroom and any ideas towards your design. If you're not sure what style you would like just yet, don't worry, we're here to give advice helping you to discover the perfect solution for your bathroom.

Using the measurements supplied we will create a 3D visual of your new suite so you can see your dream bathroom from every angle, we can also include your choice of tiles which can be chosen from our vast range of wall and floor tiles from our showroom.
